Proceedings (Plant Sciences)

Volume 99, 1989

SUBJECT INDEX

Abelmoschus
Histological structure of the pericarp of *Abelmoschus esculentus* L. (Moench) in relation to growth and dehiscence 547
Acetylene reduction
Periphytic algae 1. Diurnal productivity and N_2 fixation by microalgae colonized on an artificial substratum 43
Aerobiology
Splash dispersal in *Ramulispora sorghi* Olive and Lefebreve, the causal organism of sooty stripe of sorghum 335
Splash dispersal in *Colletotrichum graminicola* (Ces.) Wilson, the causal organism of anthracnose of sorghum 445
Akinete
Observations on unusual akinete formation in *Anabaena azollae* in isolation culture 467
Aliphatic alcohols
Flowering pattern and pod development responses in a spreading type of groundnut (cv. M-13) to a monophenol and aliphatic alcohols mixture 147
Allocation strategies
Growth strategies of early and late successional shrubs from a sub-tropical moist forests under two light regimes 343
Ammannia
Rotala Linn. (Lythraceae) in peninsular India 179
Anabaena azollae
Observations on unusual akinete formation in *Anabaena azollae* in isolation culture 467
Anabaena doliolum
Comparative studies on the toxicity of petroleum oils and their aqueous extracts towards *Anabaena doliolum* 459
Anatomy
Histological structure of the pericarp of *Abelmoschus esculentus* L. (Moench) in relation to growth and dehiscence 547
Androecial types
Diversity of androecium and pollen grains in the genus *Garcinia* L. and its bearing on geographical distribution and evolution 107
Anemophilous pollen types
Pollen analysis of some spring honeys from the western Himalayan region of Uttar Pradesh, India 241
Animal husbandry
Ecosystem function in a Khasi village of the desertified Cherrapunji area in northeast India 199
Anthesis
Floral biology of almond (*Prunus amygdalus* L. Batsch) under cultivation in Kashmir valley 297
Anthocyanin synthesis
Genetically controlled anthocyanin synthesis in callus cultures of *Zea mays* L. 293
Anthocyanins
Seed coat and hypocotyl pigments in greengram and blackgram 301
Apiaceae
Pollination mechanism in *Coriandrum sativum* Linn. (Apiaceae) 509
Apocynaceae
Optical microscopic studies on the structure and secretion of resin glands in some Apocynaceae 423
Apogamy
Cytological observations on some species of *Pteris* L. from Kumaon (northwest Himalaya) 131
Arthrocnemum indicum
Seasonal variations of proteins and amino acids in three salt marsh species 287
Aspergilli
Mycoflora associated with stored wheat and its milling fractions in India 437
Auxin
Auxin profile of gall and normal tissues of *Prosopis cineraria* (Linn.) Druce induced by *Lobopteromyia prosopidis* Mani, *in vitro* and *in vivo* 385
Avicennia marina
Seasonal variations of proteins and amino acids in three salt marsh species 287
Axial parenchyma
Histochemical and histoenzymological changes during heartwood formation in a timber tree *Shorea robusta* 21

Bees
Pollination ecology of *Zizyphus mauritiana* (Rhamnaceae) 223
Betelvine
Rhizolex 50 WP—a new fungicide to control the

foot rot of betelvine (*Piper betle* L.) caused by *Sclerotium rolfsii* Sacc. 265
Biflavones
Chemosystematics of some conifers of India 253
Bignoniaceae
Some observations on the chemistry and taxonomy of the tribe Bignonieae 1
Floral trichomes in some members of Bignoniaceae 97
Bioassay
Response of some common fresh water algae to DDT applications 279
Bioconversion
Anaerobic digestion of alkali treated crop residues with cattle waste 503
Biogas
Anaerobic digestion of alkali treated crop residues with cattle waste 503
Biomass
Seasonal patterns of phytoplankton biomass and productivity in a tropical estuarine complex (west coast of India) 485
Biomass productivity
Influence of shading on net photosynthetic and transpiration rates, stomatal diffusive resistance, nitrate reductase and biomass productivity of a woody legume tree species (*Erythrina variegata* Lam.) 539
Blachia
Genus *Blachia* Baill. (Euphorbiaceae) in India 567
Blackgram
Seed coat and hypocotyl pigments in greengram and blackgram 301
Boraginaceae
Xylotomical studies of some Boraginaceae 417
Brassica oleracea
Potassium effect on tissue hydration and transpiration in cauliflower 313
Brigantiaea
Lichen genera *Brigantiaea* and *Letrouitia* from India 165
Bryophyta
Two *Cololejeunea* from south India 83
Burkard spore trap
Circadian and seasonal periodicities of some mold allergens in the atmosphere of Madras city (India) 247

Calcium nitrate
Influence of $Ca(NO_3)_2$ on the changes in the lipid composition, peroxidation and superoxide dismutase activity in intact primary leaves of cowpea during senescence 139
Callus cultures
Genetically controlled anthocyanin synthesis in callus cultures of *Zea mays* L. 293
β-carotene
Effect of environment on pigment ratios in *Dunaliella* spp. from the salt pans of Gujarat 319
Cash crop ecosystem
Ecological implications of some cash crop ecosystems in north-eastern India 211
Catillaria s.lat
Lichen genus *Catillaria* s.lat. in India 369
Cattle waste
Anaerobic digestion of alkali treated crop residues with cattle waste 503
C_3–C_4 intermediates
Net photosynthetic rate in relation to leaf anatomical characteristics of C_3, C_3–C_4 and C_4 dicotyledons 529
Cecidogen
Histogenetic paterns and classification of the shoot-axis galls 391
Cecidogenesis
Histogenetic paterns and classification of the shoot-axis galls 391
Centella asiatica
Taxonomic position of *Centella asiatica* (L.) Urban 363
Cereals
High frequency somatic embryogenesis and plant regeneration from immature inflorescence cultures of two Indian cultivars of sorghum (*Sorghum bicolor* L. Moench) 405
Chemical constituents
Some observations on the chemistry and taxonomy of the tribe Bignonieae 1
Chemotaxonomy
Some observations on the chemistry and taxonomy of the tribe Bignonieae 1
Chemosystematics of some conifers of India 253
Chemosystematics of *Gardenia* 259
Chickpea
A tissue culture derived pesticide tolerant line of chickpea (*Cicer arietinum* L.) 523
Chlorella
Response of some common fresh water algae to DDT applications 279
Chlorophyll
Effect of environment on pigment ratios in *Dunaliella* spp. from the salt pans of Gujarat 319
Periphytic algae 1. Diurnal productivity and N_2 fixation by microalgae colonized on an artificial substratum 43
Chlorophyll and yield
Sensitivity of *Triticale hexaploide* Cv. Panda-6 to sulphur dioxide 271
Circadian and seasonal periodicity
Circadian and seasonal periodicities of some

mold allergens in the atmosphere of Madras city (India) 247
Classification
Histogenetic paterns and classification of the shoot-axis galls 391
Coefficient of variability
Ultimate fibres in tossa jute (*Corchorus olitorius* L.) and their utilization in selection 37
Colletotrichum graminicola
Splash dispersal in *Colletotrichum graminicola* (Ces.) Wilson, the causal organism of anthracnose of sorghum 445
Cololejeunea
Two *Cololejeunea* from south India 83
Conifers
Chemosystematics of some conifers of India 253
Convallaria
Floral anatomy of the Liliaceae: Tribe Convallarieae 91
Cotyledonary reserves
Epicotyl excision and reserve mobilization in winged bean 411
C_3 plants
Net photosynthetic rate in relation to leaf anatomical characteristics of C_3, C_3–C_4 and C_4 dicotyledons 529
C_4 plants
Net photosynthetic rate in relation to leaf anatomical characteristics of C_3, C_3–C_4 and C_4 dicotyledons 529
Cupressales
Chemosystematics of some conifers of India 253
Cuticular studies
Use of cuticular studies in distinguishing species of *Dalbergia* 7
Cytokinin
Plant regeneration *in vitro* in different cultivars of sesame (*Sesamum indicum* L.) 135
Cytology
Cytological observations on some species of *Pteris* L. from Kumaon (northwest Himalaya) 131

Dalbergia
Use of cuticular studies in distinguishing species of *Dalbergia* 7
DDT
Response of some common fresh water algae to DDT applications 279
Decomposition
Decomposition studies on two floating leaved macrophytes, *Nymphaea nouchali* and *Nymphoides indica*, of lake Kondakarla, India 473
Defoliation
Effect of age, length, defoliation and storage of scion sticks on success of softwood grafting in jackfruit (*Artocarpus heterophyllus* Lam) 585
Dehiscence
Histological structure of the pericarp of *Abelmoschus esculentus* L. (Moench) in relation to growth and dehiscence 547
Density
Analysis of forest vegetation of Morni hills in northeast Haryana 117
Desertification in humid tropics
Ecosystem function in a Khasi village of the desertified Cherrapunji area in northeast India 199
Disease control
Rhizolex 50 WP—a new fungicide to control the foot rot of betelvine (*Piper betle* L.) caused by *Sclerotium rolfsii* Sacc. 265
Distribution
Floral trichomes in some members of Bignoniaceae 97
Diurnal Study
Periphytic algae 1. Diurnal productivity and N_2 fixation by microalgae colonized on an artificial substratum 43
Domestication
Differential resource allocation in seed and vegetable types of cluster bean [*Cyamopsis tetragonoloba* (L.) Taub.] 579
Dominance
Analysis of forest vegetation of Morni hills in northeast Haryana 117
Dunaliella
Effect of environment on pigment ratios in *Dunaliella* spp. from the salt pans of Gujarat 319

EC_{50}
Comparative studies on the toxicity of petroleum oils and their aqueous extracts towards *Anabaena doliolum* 459
Ecology
Ecological and phytogeographical observations on the fern flora of Pithoragarh district (northwest Himalaya) 327
Electromagnetic radiation
Spectral reflectance characteristics of vegetation and their use in estimating productive potential 59
Embryosac
A cytoembryological study of *Urochloa panicoides* P Beauv. (Poaceae) 453
Energy budget
Ecological implications of some cash crop ecosystems in north-eastern India 211
Energy sources
Spectral reflectance characteristics of vegetation and their use in estimating productive potential 59
Environmental interrelationship
Seasonal patterns of phytoplankton biomass

and productivity in a tropical estuarine complex (west coast of India) 485
Epidemiology
Splash dispersal in *Ramulispora sorghi* Olive and Lefebreve, the causal organism of sooty stripe of sorghum 335
Splash dispersal in *Colletotrichum graminicola* (Ces.) Wilson, the causal organism of anthracnose of sorghum 445
Epidermis
Use of cuticular studies in distinguishing species of *Dalbergia* 7
Epigeal germination
Loss of inoculated rhizobial population due to epigeal germination of seed and the influence of methods of inoculation on soybean yield 29
Erythrina variegata
Influence of shading on net photosynthetic and transpiration rates, stomatal diffusive resistance, nitrate reductase and biomass productivity of a woody legume tree species (*Erythrina variegata* Lam.) 539
Euphorbiaceae
Genus *Blachia* Baill. (Euphorbiaceae) in India 567

Ferns
Ecological and phytogeographical observations on the fern flora of Pithoragarh district (north-west Himalaya) 327
Fibre cell
Ultimate fibres in tossa jute (*Corchorus olitorius* L.) and their utilization in selection 37
Flies
Pollination ecology of *Zizyphus mauritiana* (Rhamnaceae) 223
Floral anatomy
Floral anatomy of the Liliaceae: Tribe Convallarieae 91
Floral biology
Floral biology of almond (*Prunus amygdalus* L. Batsch) under cultivation in Kashmir valley 297
Floral trichomes
Floral trichomes in some members of Bignoniaceae 97
Flowering
Flowering pattern and pod development responses in a spreading type of groundnut (cv. M-13) to a monophenol and aliphatic alcohols mixture 147
Flowering period
Floral biology of almond (*Prunus amygdalus* L. Batsch) under cultivation in Kashmir valley 297
Foliar injury
Sensitivity of *Triticale hexaploide* Cv. Panda-6 to sulphur dioxide 271
Foot rot
Rhizolex 50 WP—a new fungicide to control the foot rot of betelvine (*Piper betle* L.) caused by *Sclerotium rolfsii* Sacc. 265
Free amino acids
Seasonal variations of proteins and amino acids in three salt marsh species 287
Fruit
Histological structure of the pericarp of *Abelmoschus esculentus* L. (Moench) in relation to growth and dehiscence 547
Fungal spores
Circadian and seasonal periodicities of some mold allergens in the atmosphere of Madras city (India) 247

Garcina
Diversity of androecium and pollen grains in the genus *Garcinia* L. and its bearing on geographical distribution and evolution 107
Gardenia
Chemosystematics of *Gardenia* 259
Genotype
Ultimate fibres in tossa jute (*Corchorus olitorius* L.) and their utilization in selection 37
Geographical distribution
Diversity of androecium and pollen grains in the genus *Garcinia* L. and its bearing on geographical distribution and evolution 107
Greengram
Seed coat and hypocotyl pigments in greengram and blackgram 301
Groundnut
Flowering pattern and pod development responses in a spreading type of groundnut (cv. M-13) to a monophenol and aliphatic alcohols mixture 147
Growth
Comparative studies on the toxicity of petroleum oils and their aqueous extracts towards *Anabaena doliolum* 459
Growth and population dynamics
Growth and population dynamics of an exotic weed *Parthenium hysterophorus* Linn 51
Growth rate
Influence of shading on net photosynthetic and transpiration rates, stomatal diffusive resistance, nitrate reductase and biomass productivity of a woody legume tree species (*Erythrina variegata* Lam.) 539

Halophytes
Seasonal variations of proteins and amino acids in three salt marsh species 287
Heartwood
Histochemical and histoenzymological changes during heartwood formation in a timber tree *Shorea robusta* 21

Heleochloa setulosa
Seasonal variations of proteins and amino acids in three salt marsh species 287
Heliotropioideae
Xylotomical studies of some Boraginaceae 417
Heliotropium angiospermum
Xylotomical studies of some Boraginaceae 417
Hepaticae
Two *Cololejeunea* from south India 83
Histogenesis
Ontogenesis of *in vitro* shoot bud proliferation in *Solanum sarrachoides* Sendt. 307
Histogenetic paterns and classification of the shoot-axis galls 391
Honey
Pollen analysis of some spring honeys from the western Himalayan region of Uttar Pradesh, India 241
Hydrocotyle
Taxonomic position of *Centella asiatica* (L.) Urban 363
Hydrology
Ecological implications of some cash crop ecosystems in north-eastern India 211
Hymenopterans
Pollination mechanism in *Coriandrum sativum* Linn. (Apiaceae) 509
Hypoauxiny
Auxin profile of gall and normal tissues of *Prosopis cineraria* (Linn.) Druce induced by *Lobopteromyia prosopidis* Mani. *in vitro* and *in vivo* 385

Immature inflorescence
High frequency somatic embryogenesis and plant regeneration from immature inflorescence cultures of two Indian cultivars of sorghum (*Sorghum bicolor* L. Moench) 405
Importance value index
Analysis of forest vegetation of Morni hills in northeast Haryana 117
Incomplete dominance
Intraspecific hybrid generations in *Urena lobata* L. with a note on the taxonomy of the species 127
Indian lichens
Lichen genera *Brigantiaea* and *Letrouitia* from India 165
Lichen genus *Catillaria* s.lat. in India 369
Indian mangroves
Systematic leaf anatomy of some Indian mangroves 557
Inoculation methods
Loss of inoculated rhizobial population due to epigeal germination of seed and the influence of methods of inoculation on soybean yield 29
Inter fascicular distance
Net photosynthetic rate in relation to leaf anatomical characteristics of C_3, C_3–C_4 and C_4 dicotyledons 529
Intraspecific hybridization
Intraspecific hybrid generations in *Urena lobata* L. with a note on the taxonomy of the species 127

Kumaon
Ecological and phytogeographical observations on the fern flora of Pithoragarh district (north-west Himalaya) 327

Lake Kondakarla
Decomposition studies on two floating leaved macrophytes, *Nymphaea nouchali* and *Nymphoides indica*, of lake Kondakarla, India 473
Lantana residues
Anaerobic digestion of alkali treated crop residues with cattle waste 503
Laticifer
Structure and development of fruit wall ornamentations in *Pergularia daemia* (Forsk.) Chiov (Asclepiadaceae) 15
Leaf anatomy
Systematic leaf anatomy of some Indian mangroves 557
Net photosynthetic rate in relation to leaf anatomical characteristics of C_3, C_3–C_4 and C_4 dicotyledons 529
Leaf dynamics
Leaf dynamics of early versus late successional shrubs of sub-tropical moist forests of north-eastern India 431
Leaf litters
Anaerobic digestion of alkali treated crop residues with cattle waste 503
Letrouitia
Lichen genera *Brigantiaea* and *Letrouitia* from India 165
Light adaptation
Architecture and growth patterns of early versus late successional shrubs of sub-tropical moist forest of north-eastern India 353
Light adaptation of shrubs
Growth strategies of early and late successional shrubs from a sub-tropical moist forests under two light regimes 343
Lythraceae
Rotala Linn. (Lythraceae) in peninsular India 179

Macrophytes
Decomposition studies on two floating leaved macrophytes, *Nymphaea nouchali* and *Nymphoides indica*, of lake Kondakarla, India 473
Maize
Genetically controlled anthocyanin synthesis in callus cultures of *Zea mays* L. 293

Mallotomia gnaphalodes
Xylotomical studies of some Boraginaceae 417
Methane
Anaerobic digestion of alkali treated crop residues with cattle waste 503
Micropropagation
Ontogenesis of *in vitro* shoot bud proliferation in *Solanum sarrachoides* Sendt. 307
Microspore mother cell
Cytochemical study of nucleic acids, proteins and insoluble polysaccharides during microsporogenesis and pollen development in *Najas marina* L. 155
Microsporogenesis
A cytoembryological study of *Urochloa panicoides* P Beauv. (Poaceae) 453
Millet
Comparison of physiological responses of pearl millet and sorghum to water stress 517
Multiple shoot buds
Plant regeneration *in vitro* in different cultivars of sesame (*Sesamum indicum* L.) 135
Mycoflora
Mycoflora associated with stored wheat and its milling fractions in India 437

Najas marina
Cytochemical study of nucleic acids, proteins and insoluble polysaccharides during microsporogenesis and pollen development in *Najas marina* L. 155
Net photosynthesis
Influence of shading on net photosynthetic and transpiration rates, stomatal diffusive resistance, nitrate reductase and biomass productivity of a woody legume tree species (*Erythrina variegata* Lam.) 539
Net photosynthetic rate in relation to leaf anatomical characteristics of C_3, C_3–C_4 and C_4 dicotyledons 529
Nitrate reductase
Influence of shading on net photosynthetic and transpiration rates, stomatal diffusive resistance, nitrate reductase and biomass productivity of a woody legume tree species (*Erythrina variegata* Lam.) 539
Nitrogen fixing
Observations on unusual akinete formation in *Anabaena azollae* in isolation culture 467
Nucleic acids
Cytochemical study of nucleic acids, proteins and insoluble polysaccharides during microsporogenesis and pollen development in *Najas marina* L. 155
Numerical analysis
Chemosystematics of *Gardenia* 259
Nutrient losses
Ecological implications of some cash crop ecosystems in north-eastern India 211
Nutrient release
Decomposition studies on two floating leaved macrophytes, *Nymphaea nouchali* and *Nymphoides indica*, of lake Kondakarla, India 473
Nutrients
Periphytic algae 1. Diurnal productivity and N_2 fixation by microalgae colonized on an artificial substratum 43

Ontogeny
Floral trichomes in some members of Bignoniaceae 97
Organogenesis
Ontogenesis of *in vitro* shoot bud proliferation in *Solanum sarrachoides* Sendt. 307

Packing cost
Differential resource allocation in seed and vegetable type of cluster bean [*Cyamopsis tetragonoloba* (L.) Taub.] 579
Papillae
Use of cuticular studies in distinguishing species of *Dalbergia* 7
Parthenium hysterophorus
Growth and population dynamics of an exotic weed *Parthenium hysterophorus* Linn 51
Penicillia
Mycoflora associated with stored wheat and its milling fractions in India 437
Pergularia daemia
Structure and development of fruit wall ornamentations in *Pergularia daemia* (Forsk.) Chiov (Asclepiadaceae) 15
Pericarp
Histological structure of the pericarp of *Abelmoschus esculentus* L. (Moench) in relation to growth and dehiscence 547
Periphyton
Periphytic algae 1. Diurnal productivity and N_2 fixation by microalgae colonized on an artificial substratum 43
Peroxidase
A tissue culture derived pesticide tolerant line of chickpea (*Cicer arietinum* L.) 523
Pesticide
A tissue culture derived pesticide tolerant line of chickpea (*Cicer arietinum* L.) 523
Petroleum
Comparative studies on the toxicity of petroleum oils and their aqueous extracts towards *Anabaena doliolum* 459
Phenolic compound
Flowering pattern and pod development responses in a spreading type of groundnut (cv. M-13) to a monophenol and aliphatic alcohols mixture 147

Phenological changes
Spectral reflectance characteristics of vegetation and their use in estimating productive potential 59
Phytogeography
Ecological and phytogeographical observations on the fern flora of Pithoragarh district (northwest Himalaya) 327
Phytoplankton
Seasonal patterns of phytoplankton biomass and productivity in a tropical estuarine complex (west coast of India) 485
Pigment ratios
Effect of environment on pigment ratios in *Dunaliella* spp. from the salt pans of Gujarat 319
Pinales
Chemosystematics of some conifers of India 253
Plant regeneration
High frequency somatic embryogenesis and plant regeneration from immature inflorescence cultures of two Indian cultivars of sorghum (*Sorghum bicolor* L. Moench) 405
Plant strategies
Architecture and growth patterns of early versus late successional shrubs of sub-tropical moist forest of north-eastern India 353
Plant succession
Architecture and growth patterns of early versus late successional shrubs of sub-tropical moist forest of north-eastern India 353
Plantation
Ecosystem function in a Khasi village of the desertified Cherrapunji area in northeast India 199
Plantlet regeneration
Plant regeneration *in vitro* in different cultivars of sesame (*Sesamum indicum* L.) 135
Pod development
Flowering pattern and pod development responses in a spreading type of groundnut (cv. M-13) to a monophenol and aliphatic alcohols mixture 147
Pollen
Cytochemical study of nucleic acids, proteins and insoluble polysaccharides during microsporogenesis and pollen development in *Najas marina* L. 155
Pollen analysis
Pollen analysis of some spring honeys from the western Himalayan region of Uttar Pradesh, India 241
Pollen flow
Pollination ecology of *Zizyphus mauritiana* (Rhamnaceae) 223
Pollen load
Pollination mechanism in *Coriandrum sativum* Linn. (Apiaceae) 509
Pollen types
Diversity of androecium and pollen grains in the genus *Garcinia* L. and its bearing on geographical distribution and evolution 107
Pollination
Pollination ecology of *Zizyphus mauritiana* (Rhamnaceae) 223
Pollination mechanism in *Coriandrum sativum* Linn. (Apiaceae) 509
Floral biology of almond (*Prunus amygdalus* L. Batsch) under cultivation in Kashmir valley 297
Potassium
Potassium effect on tissue hydration and transpiration in cauliflower 313
Primary productivity
Periphytic algae 1. Diurnal productivity and N_2 fixation by microalgae colonized on an artificial substratum 43
Productivity
Seasonal patterns of phytoplankton biomass and productivity in a tropical estuarine complex (west coast of India) 485
Prosopis cineraria
Auxin profile of gall and normal tissues of *Prosopis cineraria* (Linn.) Druce induced by *Lobopteromyia prosopidis* Mani, *in vitro* and *in vivo* 385
Proteins
Seasonal variations of proteins and amino acids in three salt marsh species 287
Cytochemical study of nucleic acids, proteins and insoluble polysaccharides during microsporogenesis and pollen development in *Najas marina* L. 155
Psophocarpus tetragonolobus
Epicotyl excision and reserve mobilization in winged bean 411
Pteris L.
Cytological observations on some species of *Pteris* L. from Kumaon (northwest Himalaya) 131

Ramulispora sorghi
Splash dispersal in *Ramulispora sorghi* Olive and Lefebreve, the causal organism of sooty stripe of sorghum 335
Ray parenchyma
Histochemical and histoenzymological changes during heartwood formation in a timber tree *Shorea robusta* 21
Resin glands
Optical microscopic studies on the structure and secretion of resin glands in some Apocynaceae 423
Resistant cell line
A tissue culture derived pesticide tolerant line of chickpea (*Cicer arietinum* L.) 523

Resource allocation
Differential resource allocation in seed and vegetable types of cluster beam [*Cyamopsis tetragonoloba* (L.) Taub.] 579
Rhizobium
Loss of inoculated rhizobial population due to epigeal germination of seed and the influence of methods of inoculation on soybean yield 29
Rhizolex 50 WP
Rhizolex 50 WP—a new fungicide to control the foot rot of betelvine (*Piper betle* L.) caused by *Sclerotium rolfsii* Sacc. 265
Rotala
Rotala Linn. (Lythraceae) in peninsular India 179

Salt pans
Effect of environment on pigment ratios in *Dunaliella* spp. from the salt pans of Gujarat 319
Sapwood
Histochemical and histoenzymological changes during heartwood formation in a timber tree *Shorea robusta* 21
Satellite platforms
Spectral reflectance characteristics of vegetation and their use in estimating productive potential 59
Scenedesmus
Response of some common fresh water algae to DDT applications 279
Scionstick
Effect of age, length, defoliation and storage of scion sticks on success of softwood grafting in jackfruit (*Artocarpus heterophyllus* Lam) 585
Sclerotium rolfsii
Rhizolex 50 WP—a new fungicide to control the foot rot of betelvine (*Piper betle* L.) caused by *Sclerotium rolfsii* Sacc. 265
Secretion
Optical microscopic studies on the structure and secretion of resin glands in some Apocynaceae 423
Selection
Ultimate fibres in tossa jute (*Corchorus olitorius* L.) and their utilization in selection 37
Sensitivity
Sensitivity of *Triticale hexaploids* Cv. Panda-6 to sulphur dioxide 271
Sesamum indicum
Plant regeneration *in vitro* in different cultivars of sesame (*Sesamum indicum* L.) 135
Shading
Influence of shading on net photosynthetic and transpiration rates, stomatal diffusive resistance, nitrate reductase and biomass productivity of a woody legume tree species (*Erythrina variegata* Lam.) 539
Shifting agriculture
Ecological implications of some cash crop ecosystems in north-eastern India 211
Shoot-axis galls
Histogenetic patterns and classification of the shoot-axis galls 391
Shorea robusta
Histochemical and histoenzymological changes during heartwood formation in a timber tree *Shorea robusta* 21
Shrub architecture
Architecture and growth patterns of early versus late successional shrubs of sub-tropical moist forest of north-eastern India 353
Shrubs
Analysis of forest vegetation of Morni hills in northeast Haryana 117
Slash and burn agriculture
Ecosystem function in a Khasi village of the desertified Cherrapunji area in northeast India 199
Softwood
Effect of age, length, defoliation and storage of scion sticks on success of softwood grafting in jackfruit (*Artocarpus heterophyllus* Lam) 585
Solanum sarrachoides Sendt.
Ontogenesis of *in vitro* shoot bud proliferation in *Solanum sarrachoides* Sendt. 307
Somatic embryogenesis
High frequency somatic embryogenesis and plant regeneration from immature inflorescence cultures of two Indian cultivars of sorghum (*Sorghum bicolor* L. Moench) 405
Sooty stripe of sorghum
Splash dispersal in *Ramulispora sorghi* Olive and Lefebreve, the causal organism of sooty stripe of sorghum 335
Sorghum
Comparison of physiological responses of pearl millet and sorghum to water stress 517
Sorghum anthracnose
Splash dispersal in *Colletotrichum graminicola* (Ces.) Wilson, the causal organism of anthracnose of sorghum 445
Sorghum bicolor
High frequency somatic embryogenesis and plant regeneration from immature inflorescence cultures of two Indian cultivars of sorghum (*Sorghum bicolor* L. Moench) 405
Soybean
Loss of inoculated rhizobial population due to epigeal germination of seed and the influence of methods of inoculation on soybean yield 29
Species diversity
Analysis of forest vegetation of Morni hills in northeast Haryana 117
Spectroradiometer
Spectral reflectance characteristics of vegetation

and their use in estimating productive potential 59

Spine
Structure and development of fruit wall ornamentations in *Pergularia daemia* (Forsk.) Chiov (Asclepiadaceae) 15

Splash dispersal
Splash dispersal in *Ramulispora sorghi* Olive and Lefebreve, the causal organism of sooty stripe of sorghum 335
Splash dispersal in *Colletotrichum graminicola* (Ces.) Wilson, the causal organism of anthracnose of sorghum 445

Sprouting
Effect of age, length, defoliation and storage of scion sticks on success of softwood grafting in jackfruit (*Artocarpus heterophyllus* Lam) 585

Stigma receptivity
Floral biology of almond (*Prunus amygdalus* L. Batsch) under cultivation in Kashmir valley 297

Stomata
Use of cuticular studies in distinguishing species of *Dalbergia* 7
Structure and development of fruit wall ornamentations in *Pergularia daemia* (Forsk.) Chiov (Asclepiadaceae) 15

Stored wheat
Mycoflora associated with stored wheat and its milling fractions in India 437

Strategies
Leaf dynamics of early versus late successional shrubs of sub-tropical moist forests of north-eastern India 431

Structure
Optical microscopic studies on the structure and secretion of resin glands in some Apocynaceae 423

Subtropical forests
Analysis of forest vegetation of Morni hills in northeast Haryana 117

Succession
Growth strategies of early and late successional shrubs from a sub-tropical moist forests under two light regimes 343
Leaf dynamics of early versus late successional shrubs of sub-tropical moist forests of north-eastern India 431

Sulphur dioxide
Sensitivity of *Triticale hexaploide* Cv. Panda-6 to sulphur dioxide 271

Superoxide dismutase
Influence of $Ca(NO_3)_2$ on the changes in the lipid composition, peroxidation and superoxide dismutase activity in intact primary leaves of cowpea during senescence 139

Survival
Effect of age, length, defoliation and storage of scion sticks on success of softwood grafting in jackfruit (*Artocarpus heterophyllus* Lam) 585

Symbiont
Observations on unusual akinete formation in *Anabaena azollae* in isolation culture 467

Systematic significance
Floral trichomes in some members of Bignoniaceae 97

Taxales
Chemosystematics of some conifers of India 253

Taxonomic position
Taxonomic position of *Centella asiatica* (L.) Urban 363

Theropogon
Floral anatomy of the Liliaceae: Tribe Convallarieae 91

Tissue hydration
Potassium effect on tissue hydration and transpiration in cauliflower 313

Tissue proportion
Net photosynthetic rate in relation to leaf anatomical characteristics of C_3, C_3–C_4 and C_4 dicotyledons 529

Tournefortia caracasana
Xylotomical studies of some Boraginaceae 417

Tournefortia rugosa
Xylotomical studies of some Boraginaceae 417

Transpiration
Influence of shading on net photosynthetic and transpiration rates, stomatal diffusive resistance, nitrate reductase and biomass productivity of a woody legume tree species (*Erythrina variegata* Lam.) 539
Potassium effect on tissue hydration and transpiration in cauliflower 313

Transpiration efficiency
Comparison of physiological responses of pearl millet and sorghum to water stress 517

Trees
Analysis of forest vegetation of Morni hills in northeast Haryana 117

Trichome
Structure and development of fruit wall ornamentations in *Pergularia daemia* (Forsk.) Chiov (Asclepiadaceae) 15

Tropical estuary
Seasonal patterns of phytoplankton biomass and productivity in a tropical estuarine complex (west coast of India) 485

Tropical forest
Growth strategies of early and late successional shrubs from a sub-tropical moist forests under two light regimes 343

Tropical shrubs
Leaf dynamics of early versus late successional shrubs of sub-tropical moist forests of north-eastern India 431
Twin shoot system
Epicotyl excision and reserve mobilization in winged bean 411

Umbelliferae
Taxonomic position of *Centella asiatica* (L.) Urban 363
Urena lobata
Intraspecific hybrid generations in *Urena lobata* L. with a note on the taxonomy of the species 127
Urochloa panicoides
A cytoembryological study of *Urochloa panicoides* P Beauv. (Poaceae) 453

Var. *marathensis*
A cytoembryological study of *Urochloa panicoides* P Beauv. (Poaceae) 453
Var. *panicoides*
A cytoembryological study of *Urochloa panicoides* P Beauv. (Poaceae) 453
Var *pubescens*
A cytoembryological study of *Urochloa panicoides* P Beauv. (Poaceae) 453
Var. *velutina*
A cytoembryological study of *Urochloa panicoides* P Beauv. (Poaceae) 453
Vegetation reflectance
Spectral reflectance characteristics of vegetation and their use in estimating productive potential 59
Vigna mungo
Seed coat and hypocotyl pigments in greengram and blackgram 301
Vigna radiata
Seed coat and hypocotyl pigments in greengram and blackgram 301
Vigna unguiculata
Influence of $Ca(NO_3)_2$ on the changes in the lipid composition, peroxidation and superoxide dismutase activity in intact primary leaves of cowpea during senescence 139
Village ecosystem
Ecosystem function in a Khasi village of the desertified Cherrapunji area in northeast India 199
Wasps
Pollination ecology of *Zizyphus mauritiana* (Rhamnaceae) 223
Water stress
Comparison of physiological responses of pearl millet and sorghum to water stress 517
Wheat straw
Anaerobic digestion of alkali treated crop residues with cattle waste 503

Xylotomy
Xylotomical studies of some Boraginaceae 417
Zizyphus
Pollination ecology of *Zizyphus mauritiana* (Rhamnaceae) 223
